- **WF-FE-06-KTG**
  - CW-CP-08-T-SEK

Window Configurations

The Keylite Technical Team will assist you to specify the optimum solution for your project and create an order schedule for combination windows and flashings.

**Roof window layout options:**

- **Single Window**

- **Combi System**

  When specifying a combination of roof windows allowance must be made for the spacing between the windows and also for internal support trimmers.

  **Options for spacing between the windows.**
  - 100mm
  - 50mm (on Combi System only)
  - 18mm (on Combi System only)

  **Support Trimmer options**
  - White Internal Support Trimmer
  - Pine Internal Support Trimmer

- **Bi-Lite System**

- **Grid System**

  **Combination flashing options to suit your roof finish.**
  - Tile Roof
  - Slate Roof
  - Plain Tile Roof - Combi System only

Flashings Range

**Tile: TRF**

- **Roof Pitch 20° – 90°**
- **Material Profile - Max 45 mm**
  Flashing for single window installation into interlocking profiled tiles or interlocking plain tiles.

**Deep Tile: DTRF**

- **Roof Pitch 15° – 90°**
- **Material Profile – Max 90mm**
  Flashing for single window installation into flat or profiled interlocking tiles. Also suitable for interlocking slate and profiled sheeting.

**Slate: SRF**

- **Roof Pitch 15° – 90°**
- **Material Profile – Max 10mm**
  Flashing for single window installation into slate up to 10mm thick. Not to be used with interlocking slate.

**Plain Tile: PTRF**

- **Roof Pitch 25° – 90°**
- **Material Profile – Max 15mm**
  Flashing for single window installation into plain tiles. Not to be used with interlocking plain tiles.
